PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Frontend Developer with a passion for creating visually appealing and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and frontend framework like React.js. Solid understanding of responsive design principles and cross-browser compatibility. Strong problem-solving skills with a focus on continuous learning and professional growth. Excellent communication skills and ability to work collaboratively in team environments.

KEY SKILLS

- Proficient in **HTML**, **CSS**, and **JavaScript** for building interactive websites.
- Experience with **React**, **Tailwind CSS**, and **Redux** for creating scalable and visually appealing web applications.
- Familiarity with **Firebase**, enabling integration of real-time databases, authentication.
- Skilled in using **Git** for version control and collaboration within development teams.
- Experience with **Trello** and **Jira** for efficient task management.
- Familiarity with unit tests using **Jest/React Testing Library** to ensure code reliability.
- Deployment expertise using platforms like **Netlify** and **Vercel**.

WORK EXPERIENCE

Frontend Developer *(Volunteer)*, USAF | March 2023 - Present

Recruited to join a team of developers in building a volunteer management system web app.

- Built a responsive password settings page that interacts with an API to facilitate the password reset process and allows the user reset their password.
- Implemented reusable, highly responsive UI components using React concepts.
- Built a notification settings page that gives users the ability to subscribe or unsubscribe from job notification emails or push notifications.
- Participated in discussions with the development team to conceptualize and design user interface ideas and applications.
- Attended to pull-request and merged branches, also debugged application codes.

Frontend Developer *(Intern)*, ZURI, | March 2021 - December 2022

Accepted into the training academy, qualified for several training phase and was promoted to join a team of developers in building a hang-out app.

- Implemented the UI of the Account Settings Page.
- Developed the UI of the Catch-Up Error404 Page.
- Contributed heavily during user-friendly brainstorming sessions.

EDUCATION

- Complete Guide To JavaScript - Udemy (2022)
- Fundamentals of JavaScript - FreeCodeCamp (2022)
- Bachelor of Science, Natural Science - Enugu State University (2017)
