WORK EXPERIENCE

Sai Kai Global (USAF), Austin Texas -- *Frontend Engineer*   March 2023 - Present

Building a volunteer management system software.

- Worked on the front end of web applications using React.js, CSS, Javascript, and Tailwind, including creating reusable components, implementing routing and integrating with APIs.
- I am Creating new features, functionality, and capabilities on the company website using Javascript, ReactJs, and Tailwind CSS.
- Created modular, responsive templates using modern CSS frameworks like TailwindCSS and JavaScript libraries.
- Reviews codes and provided constructive feedback to teammates.
- Engaged with and Identified innovative ideas and proof of concepts according to project requirements.
- Worked on a profile section on the VMS platform so that anyone can easily showcase their skills, interests, and volunteer history to potential employers and volunteer organizations.
- Modified HTML, ReactJs, and Tailwind CSS codes to optimize the performance of the page for faster Loading.

ZURI INC. Lagos -- *Frontend Engineer*   March 2021 - December 2022

A training academy that got me through me several phases where I contributed heavily to the front-end development of several projects. projects was a file comparison and a hang-out app.

- I lead the frontend development team during the project's final phase, providing technical guidance and overseeing the implementation of key features for a hang-out app.
- Shipped features and collaborated closely with UI/UX designers to translate mockups and wireframes into fully functional and visually appealing front-end components.
- Conducted code reviews and implemented best practices to ensure good code quality, maintainability, and scalability of the frontend codebase.
- Actively participated in team meetings, providing insights and suggestions to improve the overall user experience and front-end development process.
